St Bartholomew's C of E Primary School Pupil premium strategy statement Year 3 of 3 23/24

This statement details our school's use of pupil premium funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

School overview

Detail	Data
School name	St Bartholomew's C of E Primary School
Number of pupils in school	195
Proportion (%) of pupil premium eligible pupils	28.2%
Academic year/years that our current pupil premium strategy plan covers (3-year plans are recommended)	2021-22 2022-23 <mark>2023-24</mark>
Date this statement was published	31.07.23
Date on which it will be reviewed	GB2 2023/24
Statement authorised by	Full GB
Pupil premium lead	Dave Fordon/ Gemma Coward
Governor / Trustee lead	Stephen Gray

Funding overview Year 3 figures

Detail	Amount
Pupil premium funding allocation this academic year	£71,180
Recovery premium funding allocation this academic year	£TBC
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£9057
Total budget for this academic year If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year	£81,615 + £10435 at BUF 1 Total £92,050

Part A: Pupil premium strategy plan

Statement of intent

The school is working hard to continue the trend to ensure more disadvantaged pupils achieve the highest standards. Part of this is ensuring that, wherever possible, teachers can provide small group quality first teaching and intervention. High quality TAs and HLTAs are deployed across the school to provide targeted support. This means every child, regardless of background or prior achievement will have focused teaching to ensure they can make accelerated progress.

The school nurture TAs are part funded by the pupil premium grant to ensure that any vulnerable children, including those in receipt of the Service Grant can access emotional literacy support to enable them to access learning effectively.

We will continue to consider the challenges faced by vulnerable pupils, such as those who have a social worker, parents in prison and young carers. The activity we have outlined in this statement is also intended to support their needs, regardless of whether they are disadvantaged or not.

This strategy is linked closely with our precision teaching interventions across the school as part of Quality First Teaching. This work will continue to be underpinned by whole-school and individual diagnostic assessment.

To ensure a robust approach, we will:

- Be proactive in the application of diagnostic assessment to ensure every child has their needs met and the risk of undetected additional disadvantage is reduced
- Work collaboratively to actively ensure that all children have high aspirations regardless of their starting point
- Regular, robust monitoring takes place to ensures that all staff are taking responsibility for
 ensuring that formative assessments is responsive to the child and moving their learning on as
 quickly as possible

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	 Impact of partial school closure on the emotional literacy and self- regulation of children and, in particular, SEMH needs arising from experiences during this time
	Evidence:
	Discussions with children, staff and parents/carers, behaviour logs, observations in
	the classroom, playground and hall, SEMH referral records, increase in positive
	handling plans, Emotional Literacy: Assessment and Intervention

2	 Lack of learning stamina for some children, particularly, writing and ability to focus for long periods of time. Our vulnerable groups have been identified as experiencing longer term negative impacts Evidence: Classroom observation, learning outcomes, book scrutiny, PPMs, referrals to additional agencies for support
3	Some learners' do not have access to support for home learning and additional reading practice Evidence: Boom Reader records, parent meeting information, emails with parents and carers and diagnostic assessments
4	 Personal, social and emotional barriers to learning Evidence: Staff observations, SEMH referrals, TAS and additional agency referrals, positive handling plans, behavior logs, ELSA and nurture provision numbers
5	 Pupil Premium children identified as more likely to be vulnerable and therefore requiring additional or complex level intervention and or support from additional agencies Evidence: Referrals to other agencies, parent/carer meetings, safeguarding reports
6	Pupil Premium children who are also SEND or starting school with underdeveloped language skills Evidence: NELI and Talkboost assessments, EYFS leader report to governors, SaLT referrals
7	Attendance records have shown that our vulnerable children are more likely to be persistently absent and that parents are less likely to attend parent/carer workshops Evidence: Attendance records, workshop attendance records, attendance interventions/ meetings, additional agency involvement to support attendance and school engagement

Intended outcomes

This explains the outcomes we are aiming for by the end of our current strategy plan, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
Children with identified SEMH needs to make expected progres in reading, writing and maths	Children with ELSA support to have made expected rate of progress (3 steps) over a year from their starting point 2022-23 outcomes: ELSA 33 children in KS1 / KS2 received a block of ELSA during the academic year of 2022 – 2023 Reading 82% (27 children) in KS1 / KS2 who received ELSA support this year made 3 steps or more progress in Reading. 24% (8 children) made 4 steps progress – this is accelerated progress. In Reading, 67% (22/33) of these children achieved ARE or AARE. Writing 79% (26 children) in KS1 / KS2 who received ELSA support this year made 3 steps or more progress in Writing. 9% (3 children) made 4 steps progress and 3% (1 child) made 5 steps progress – this is accelerated progress. In writing, 56% (19/33) of these children achieved ARE or AARE. Maths Maths

85% (28 children) in KS1 / KS2 who received ELSA support this year made 3 steps or more progress in Maths. 3% (1 child) made 4 steps progress. In maths, 73% (24/33) of these children achieved ARE or AARE. To increase the % of children achieving a Good Level of Development at the end of the Early Years Foundation Stage EYFS outcomes 2022-23 67% (2/3) of children in receipt of PP funding achieved GLD 75% of all EYFS children achieved GLD To reduce the number of fixed-term suspensions For -There were two fixed term suspensions in 2021-22 staff -There were fourteen fixed term suspensions in 2022-23 to be To increase the number of children with SEMH needs being able to creati access the curriculum via quality first teaching (QFT) ng -Several (for GDPR purposes a number is not given) children have transitioned to and SEMH specialist provision this academic year applyi -All the children on roll have successful transitioned back into school and full-time ng timetables following suspension strate gies outlin ed in positi ve handl ing plans То reduc e the numb er of childr en acces sing additi onal provi sion durin g unstr uctur ed times For all those vulnerable children identified as being persistently absent to To achieve attendance of 95-100% post intervention incre Outcomes 2021-22: ase -Less than 5 children in an identified characteristic group had TELO involvement. the Less than 5 made improvement and no longer needed intervention and less than atten 5 moved to formal attendance proceedings with the LA. danc -There are 5 or less children in receipt of an EHCP. Due to the small numbers, the e of overall impact of the provision of one has resulted in the percentage being less vulne than 95% rable -FSM 92% group Outcomes for 2022-23 -Less than 5 children in an identified characteristic group had TELO involvement. Less than 5 made improvement and no longer needed intervention and less than 5 moved to prosecution. -Full detail can be found in the governor safeguarding report for Gb6a 2023

Staff To increase the % of pupil premium children achieving Age Related able Expectations in reading and writing To increase the number of children being assessed via the national to identif curriculum, no longer the pre key stage standards y and articul ate Year Year Year Year 6 the 4 (Yr 4 3 5 impac (Yr 2 **21-22**) (Yr 1 (Yr 3 t of 21-22) 21-21strate 22) 22) gies Reading 100% 75% 75% 66% and (summer ARE **ARE ARE** ARE resour term) ces Writing 100% 75% 75% 66% used (summer ARE **ARE** ARE ARE to term) accele **Outcomes 2022-23** rate Year 3 Year 4 Year 5 learni Reading 54% 50% 87% ng; readin ARE Writing 54% 50% 88% progre ARE ssion 62% 87% Maths 87% throug ARE h KS2, audit of readin g teachi ng, books and learni ng in KS2 An Children will move through book bands at expected rate increa Through pupil discussion, children articulate strategies they are using to se in stay focussed on learning learni Reading and writing continue to be a key focus for support. The I'm a ng Clever writer approach has been introduced which gives a clear scaffold stami for learners and reduces cognitive load. na, Writing volume is increasing and progress can be seen across the school partic evidenced on the writing walls in every classroom. ularly, Behaviour for learning has been a key focus this year and this will writing continue into 2023-24 with the 5-point scale being introduced as a whole and school focus on the September Inset Day. ability to focus for longer period s of time Pupil The number of children requiring ELSA after nurture provision reduces as Premi they have strategies to cope from earlier graduated response

um childr en identifi ed as vulner able, partic ularly during lockdo wn to receiv e a form of **ELSA** or nurtur provisi on Perso nal,

Other agencies direct the school to offer ELSA which impacts on our ability to proactively offer support.

This year, ELSA has been delivered in small groups linked to identified need e.g. anger strategies or discussing emotions. This has enabled the school to support more children.

Progress of children who received ELSA in 2022-23

F	READING	3	١	WRITING	6		MATHS	
3+	4+	5	3+	4+	5	3+	4+	5

82%	24%	0%	79%	9%	3%	85%	3%	0%

 In class, staff are continuing to apply strategies taught in ELSA sessions so children are not repeating new blocks of ELSA

The strategies are timetabled in class and, where necessary, additional check in times given to support children.

 Children identified as vulnerable are accessing support whether in school or via another agency

34 children are receiving support at additional to complex level ELSA is again, supporting attainment levels across the school.

- social and emoti onal barrier s to learni ng are reduc ed
- Children with identified literacy needs are having key barriers to learning identified earlier through formal assessment (SENDco or Learning Support Team)
- -The SEND advisory teacher has trained up another teacher to be able to carry out the dyslexia screen and the BVS assessment has been purchased. This year 8 new children have been screened and less than 5 had a significant dyslexic profile identified.
- -The SIDS process has enabled the school to discuss the needs of individual children with the SEND learning advisory teacher on a regular basis.
 - Exit data will show increase in language skills. For those who are still below expected levels, a referral to SaLT will be made using entry and exit data
- -All EYFS children were NELE screened in September and the intervention threshold to carry out the programme was not met
- -TalkBoost was carried out and 67% of children in receipt of PP reached a GLD

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £12444

Activity	Evidence that supports this approach	Challenge number(s) addressed
Contribution to 1.5 day SEND contract to ensure diagnostic assessment take place to ensure accurate interventions to have positive impact on pupil progress and line managing staff to ensure appropriate and timely assessments are carried out and used to accurately inform next steps	Standardised tests can provide reliable insights into the specific strengths and weaknesses of each pupil to help ensure they receive the correct additional support through interventions or teacher instruction: Standardised tests Assessing and Monitoring Pupil Progress Education Endowment Foundation EEF Phonics approaches have a strong evidence base that indicates a positive impact on the accuracy of word reading (though not necessarily comprehension), particularly for disadvantaged pupils: Phonics Toolkit Strand Education Endowment Foundation EEF	1, 2, 4, 5 & 6
Additional CPD for reading and writing following an audit to upskill teachers in quality first teacher approaches, especially those who require more targeted support	 Unlocking Letters and Sounds training for all new staff Inset training for all staff on the 'I'm a Clever Writer' approach and additional training, where needed 	

Targeted academic support (for example, tutoring, one-to-one support structured interventions)

Budgeted cost: £ 57616

Activity	Evidence that supports this approach	Challenge number(s) addressed
Oral language intervention across the year; Speech and Language Therapy care plans, NELI screen and Talk Boost delivered by a trained teaching assistant; guided reading, reading aloud, the use of structured questions and reading comprehension	 Oral Language interventions have a very high impact for a very low cost (EEF). On average they have outcomes of 6 months progress over the year. It is important that such interventions are linked to learners current stage of development. Talk Boost and NELI are recommended interventions for children of this age Vocabulary at age 5 is a very strong 	6
	predictor of the qualifications achieved at school leaving age and beyond (Feinstein and Duckworth, 2006).	
	The gap in reading age of children with poor language skills widens significantly with age – from a few months at five years old to a gap of five years di rence by the time they are 14. I Vocabulary at age 5 has been found to be the best predictor (from a range of measures at age 5 and 10) of whether children who experienced social deprivation in childhood were able to 'buck the trend' and escape poverty in later adult life (Blanden, 2006).	
	 A child's background is very influential in their language development. A study of children in a Sheffield nursery school showed a link between social disadvantage and language delay (Locke et al 2002). One of the most worrying findings of a study which followed these children into primary school was that without intervention, this delay seemed to persist (Leyden 2007) and for some children, get worse (Locke and Ginsborg 2003). 	
TA contracts linked to 1:1 or small group tuition: - Dough disco - Name writing	 On average, according to EEF, a 1:1 tuition is very effective in improving pupil outcomes, especially if additional to normal lessons. Intervention starts prior to the usual school day time 	2, 3, 6, 7
 Guided reading Learn to listen Time to Talk Precision teaching Additional 	 On average, according to EEF, small group tuition has the addition of 4 months progress over the year. The smaller the group the better (over 6 the benefit is lost) 	
- Additional phonics		

1:1 TA intervention at start of day	On average, according to EEF, a 1:1 tuition is very effective in improving pupil outcomes, especially if additional to normal lessons. Intervention starts prior to the usual school day time	1, 4, 5, 6
Small group targeted tuition for Year 2 and 4 who were most impacted by the COVID pandemic	 On average, according to EEF, small group tuition has the addition of 4 months progress over the year. The smaller the group the better (over 6 the benefit is lost) 	2, 3, 6, 7
	Tuition targeted at specific needs and knowledge gaps can be an effective method to support low attaining pupils or those falling behind, both one-to-one:	
	One to one tuition EEF (educationendowmentfoundation.org.uk)	
	And in small groups:	
	Small group tuition Toolkit Strand Education Endowment Foundation EEF	
Rapid Reader Intervention	Reading comprehension interventions	2,3,4
	Reading comprehension strategies EEF (educationendowmentfoundation.org.uk)	
TA support	TA support in group/1:1 interventions to support academic, emotional and self-regulating interventions to support PP children.	1,2,3,4 & 6

Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: £ 22467

Activity	Evidence that supports this approach	Challen ge number (s) addres sed
Vulnerable children will be prioritised by need to access ELSA and nurture support to reduce personal, social and emotional barriers to learning	There is extensive evidence associating childhood social and emotional skills with improved outcomes at school and in later life (e.g., improved academic performance, attitudes, behaviour and relationships with peers): EEF_Social_and_Emotional_Learning.pdf(educationendowmentfoundation.org.uk) Both targeted interventions and universal approaches can have positive overall effects: Behaviour interventions EEF (educationendowmentfoundation.org.uk)	1, 4, 5, 7

Embedding principles of good practice set out in the DfE's Improving School Attendance advice.	The DfE guidance has been informed by engagement with schools that have significantly reduced levels of absence and persistent absence.	7
This will involve training and release time for staff to develop and implement new procedures and appointing attendance/su pport officers to improve attendance.		
1:1 or group intervention to support emotional regulation for vulnerable learners at unstructured times e.g. break and lunch	There is extensive evidence associating childhood social and emotional skills with improved outcomes at school and in later life (e.g., improved academic performance, attitudes, behaviour and relationships with peers): EEF_Social_and_Emotional_Learning.pdf(educationendowmentfoundation.org.uk)	1, 4, 5, 7
Little Troopers club to run half termly for our Service children using the school wellbeing resources	There is extensive evidence associating childhood social and emotional skills with improved outcomes at school and in later life (e.g., improved academic performance, attitudes, behaviour and relationships with peers): EEF_Social_and_Emotional_Learning.pdf(educationendowmentfoundation.org.uk)	1, 4
Contingency fund for acute issues	To respond to issues that arise throughout the year to enable us to respond quickly to needs that have not yet been identified.	All
Support funding for PP children to attend school clubs	Physical activity has important benefits in terms of health, wellbeing and physical development (EEF)	1,3,4, 7

linibus hire nd activities	Pre teaching is imperative for children and children with limited experiences. Money to be provided for PP children's trips and	3,4,7
	experiences for pre-teaching and experiences.	

Total budgeted cost: £ 80,137

Part B: Review of outcomes in the previous academic year

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2022 to 2023 academic year.

ARE	AARE	ARE	AARE	ARE	AARE
Reading	Reading	Writing	Writing	Maths	Maths
64%	7%	64%	7%	79%	7%
33%	17%	33%	17%	33%	17%
54%	31%	54%	23%	62%	38%
50%	13%	50%	13%	87%	13%
87%	50%	88%	0%	87%	0%
	64% 33% 54% 50%	Reading Reading 64% 7% 33% 17% 54% 31% 50% 13%	Reading Reading Writing 64% 7% 64% 33% 17% 33% 54% 31% 54% 50% 13% 50%	Reading Reading Writing Writing 64% 7% 64% 7% 33% 17% 33% 17% 54% 31% 54% 23% 50% 13% 50% 13%	Reading Reading Writing Writing Maths 64% 7% 64% 7% 79% 33% 17% 33% 17% 33% 54% 31% 54% 23% 62% 50% 13% 50% 13% 87%

Our internal assessments during 2022/23 suggest that the performance of disadvantaged pupils is lower than in the pre-pandemic years in key areas of the curriculum in years 2, 3 and 4. However, the interventions in place are ensuring that children are making at least 'good' progress as shown in the progress percentages. The targeted interventions in Yr 4 have had significant impact.

	% Children achieving 3+ steps in reading	% Children achieving 3+ steps in writing	% Children achieving 3+ steps in maths
Year 1	86%	93%	86%
Year 2	83%	67%	67%
Year 3	69%	77%	77%
Year 4	88%	89%	88%
Year 5	100%	100%	100%

The targeted interventions in Key Stage 1 have resulted in good progress being made.

Attendance in 2022/23 was higher than the national average at 95.6%. Persistent absence has reduced to 13.2% (8.8% lower than national). The focus on attendance is impacting through interventions such as

the Traveller Education Liaison Officer and regular attendance scrutiny and meetings with parents and other agencies to remove barriers and provide pastoral support.

Our assessments and observations indicate that pupil behaviour, wellbeing and mental health continue to be significantly impacting, primarily due to on-going negative experiences during the pandemic and the current cost of living crisis. We continue to adapt our approach with the activities detailed in the plan and during this final year of the plan, we have bought in a Forest School teacher to develop provision on site and enable children constant access to this space. We continue to offer experiences and support services to improve health and wellbeing. Underdeveloped social skills and rising SEMH needs following covid will continue to be supported by this provision to enable the academic progress.

Externally provided programmes

Please include the names of any non-DfE programmes that you purchased in the previous academic year. This will help the Department for Education identify which ones are popular in England

Programme	Provider

Service pupil premium funding (optional)

For schools that receive this funding, you may wish to provide the following information:

Measure	Details
How did you spend your service pupil premium allocation last academic year?	The service children had half termly 'Little Troopers' club funded via Service Premium.
What was the impact of that spending on service pupil premium eligible pupils?	2021-22 Reading – 66.6% made 3 steps progress Writing – 100% made 3 steps progress Maths – 100% made 3 steps progress
	2022-23 Reading – 100% made 3 steps progress Writing – 75% made 3 steps progress Maths – 75% made 3 steps progress

Further information (optional)

We are affiliated with the Crewkerne branch of the Royal British Legion and our service children have regular opportunities to access family days and other events put on by the RBL which help our children to meet others in similar situations to themselves.
